Kristy Gavin
Board Attorney

Dear Parent:

This letter is to let you know that the Flagler County School District is, under Federal law, a district in corrective action. What this means is that Flagler County School District, together with 66 other Florida school districts, did not meet all of the requirements of the No Child Left Behind Act.

Flagler County School District met 69 percent of its criteria.

The Florida Department of Education required that Flagler County School District move some of its funds from administration to the classroom to help specific groups of students to improve. Flagler County School District has chosen to train and teach Exceptional Student Education teachers and students in the use of programs in the area of reading and/or math that will assist students in the classroom.

Thank you for working with us to improve student achievement for your child(ren).

Sincerely,

Mr. Bill Delbrugge
Superintendent
