

2015-16 Annual Measurable Objectives

Flagler County

By: Shawn Schmidli

Background Information

- Florida's waiver from reporting Adequate Yearly Progress (AYP) under the Elementary and Secondary Education Act (ESEA) required the state to report performance on annual measurable objectives (AMOs) in several areas of academic achievement in the past. With the new ESSA (Every Student Succeeds Act) legislation being implemented, states are still awaiting guidance and reporting for AMO data.
- AMOs are determined separately for each school and subgroup (calculated individually), by subject area.
 - The AMO shows whether the school/subgroup is on track to reduce its percent of non-proficient students by half by 2016-17.
- Note: No AMO data was provided by the FDOE for the 2014-15 OR 15-16 school years. Flagler calculated its own measures for both years and therefore, a ranking analysis was not possible.
- Internal Rankings were done manually for some areas by using the state SPAR website at <http://doeweb-prd.doe.state.fl.us/eds/nclbspar/index.cfm>
- Historical AMO Data available at <http://schoolgrades.fldoe.org/> and at <http://flaglerschools.com/district-data>
